MONETARY AND COMMERCIAL.

On Union street business is very duil, the re ceipts of produce being very light, as is the case generally at this season of the year, when the farmers are engaged in plowing for Corn. There is more businers doing in the dry goods, boot and shoe and clothing trades, and for the past week King sirest has presented a much more lively appearance.

In money matters there is nothing of special interest to note, the supply of money among the people being still very limited, while upon good security business men have no trouble in obtaining all that is requisite. There is more inquiry for loans in the Baltimore market and rates are a trifle harder, though there is still an abundant supply of funds, and for round amounts on choice collateral easy terms can be made. We quote loans at 4a5 per cent, with rather more doing at the outside figure, and discounts at 4a6, only a few well known names passing at 4 Money was easy in the New York market yesterday, and call loans on approved collateral were 3a31 per c'. On time the quotation was not above 3 per cent on this class of collsteral. On U. S. bonds money could be borrowed for 90 days or less at 11a2 per ct. Prime mercantile paper 3a4 per ct. The rates for money in the Philadelphia market are 3.4 per cent for loans,

and 41a51 for best commercial paper. The amount of interest to be provided for under the new plan will be above \$34,000 per annum, while under the last redduced assessment the revenus will amount to about \$88,000, thus leaving, after paying the interest, a sum sufficient to carry on the cty government, and at the same time estal lish a sinking fund of considerable propor-

It contains neither oil nor dye, and will not soil or color white cambric; yet it lasts long on the hair and keeps it fresh and vigorous. E. S. Leadbester & Bro.
